we are dealing with a new political form of society whose specificity comes from the articulation between two different traditions on one side we have the liberal tradition constituted by the rule of law the defence of human rights and the respect of individual liberty on the other the democratic tradition whose main ideas are those of equal identity between governing and governed and popular sovereignty there is no necessary relation between those two distinct traditions but only a contingent historical articulation let's not forget that while we tend today to take the link between liberalism and democracy for granted their union far from being a smooth process was the result of bitter struggles mouffe the democratic paradox the unity in diversity is based on multi wheel and not on mono wheel system truth has one face while the untruth has many faces truth does not seek for any excuse while the untruth always searches for an excuse truth cannot be divided

it is the same for one and all there has been a growing paradoxical environment in the country not genuinely but due to lack of reasoning and reconciliation which are the offshoots of ego misunderstanding and confrontation today paradoxes in our democracy are multiplying manifold time we need to take them seriously search for solutions these paradoxes include diversity division fundamental duties governance and citizens moral values and human development i have analysed them in depth and endeavoured to show their patenting effects in the democratic functioning driving towards haywire and disorderliness this is setting a negative concept for the future generations the responsibility for that rests on the present generation
